Eldorado net sales also grew double-digit at the last several quarters high – 10.8% year-on-year to RUB 28.9 billion (with VAT) in the second quarter of 2018. The growth was driven by strong Like-for-Like sales of both chains supported by sustainable dynamics of M.Video’s online-based sales.

Like-for-Like sales of the Group increased by 15.4% in the second quarter of 2018, due to growing number of tickets and higher average ticket. M.Video Like-for-Like sales improved by record-high 16.1%, while Eldorado’s Like-for-Like sales grew by 14.1% - the best result over last several years.

M.Video’s online-based sales (pick-up and home delivery) increased by 63.0% year-on-year in the second quarter of 2018, driven by growing number of transactions and higher average ticket. “For the first time, M.Video-Eldorado Group reports combined operational results of two chains. In short time, the united company made substantial progress and strengthened its leadership in growing consumer electronics market. We already see positive effect from Eldorado’s transition to M.Video business model and efficient unification of assortment, promos and personnel management. After two months of the joint team work, Eldorado demonstrated the best sales dynamics over the past year and a half”, - commented M.Video-Eldorado Group President, Alexander Tynkovan.

“In the second quarter, we saw noticeable market upgrowth. Both M.Video and Eldorado chains managed to outperform the strong market and delivered sound double-digit like-for-likes, thanks to the brand management teams’ efforts, and the efficiency of our business model. It is especially pleasant to report Eldorado’s encouraging performance. The chain optimized its product range and delivered almost 60% sales growth in digital category, three times outperforming the market in the second quarter. Consumer credits share has also improved and reached healthy 19% of Eldorado’s net sales. In parallel, the brand has changed its promos approach, started OMNI-channel model implementation and aligned prices in online and offline. Eldorado sales growth, fully driven by record LFLs,

shall be additionally supported by extensive expansion program in the latter part of the year”, - emphasized M.Video-Eldorado Group Chief Executive Officer, Enrique Fernandez.

“In M.Video, online remains the crucial driver of the business. In the second quarter of 2018, M.Video’s online sales grew over 60% thanks to the website fine-tuning and internet advertising effectiveness. M.Video consistently strengthens its position in digital – the category sales increased by 30% year-on-year in the second quarter, thanks to our strategic projects, especially, M_Mobile. This year, we are piloting stand-alone stores under this brand”.

“Besides, we successfully conducted promo campaigns, including ones related to the World Cup, and got additional positive impact on the Group’s sales in selected product categories in the second quarter”, - added Mr. Fernandez.
